## ABOUT ME

My passion in the digital realm is creating visually pleasing content fitted with satisfying and inspiring sound design. My background as a music producer gives me the experience to trust in my taste. I pour 100% in everything I do and have a keen eye for when details need fixing or when to move on. My strength lies in never giving up and having a high ambition to grow as an artist.

In the physical world i'm a social animal with love for cooking food for friends, playing golf and occasionally grab a drink or two.
